

Make it Better

Sealed, Sterile, Secure Thermo Scientific™ Triple Wrap Plates

Environmental monitoring

Our pharmacopoeia-compliant Triple Wrap Plates are designed to support your most sterile environments.

Available in both 55 mm contact and 85 mm settling plates, we have your environmental monitoring needs covered.

"This is a well thought through product that is offering multiple benefits in one"

Biopharmaceutical Customer

Secure Grip Fit™ lids to enable one-handed sampling*

Full traceability with 2D (GS1-matrix) barcode**

VHP exposure indicator

Gamma-irradiation indicator

Protective easy open wrapping materials

- Primary wrap PET/PE layer with breathable patch
- Secondary wrap PET/SiOx/PE layer impervious to VHP with immobilised moisture control sachet
- Tertiary wrap PET/PE layer dust cover

* 55mm contact plates only

** USA manufactured SKUs only

Confidence in results

Assurance of media integrity with our unique VHP indicator and three protective layers for extra protection

Full traceability

Available with 2D (GS1-matrix) barcoding for sampling accuracy

Saves time

Reduce time on incoming goods controls with our large volume single lots and long-shelf life

Available in a variety of formats to suit your environmental monitoring needs:

Product Description	Storage Temperature	Minimum Guaranteed Storage-Life	Format	Product Code	Country of Manufacturing
Triple Wrap Sterile Tryptic Soy Agar with neutralizers	2-25 °C	184 days	Contact Plates with 2D barcodes 100 plates (10 packs of 1 x 10 plates)	R111TW1	USA
	2-25 °C	184 days	Settling Plates with 2D barcodes 100 plates (10 packs of 1 x 10 plates)	R111TW2	USA
Triple Wrap Sterile Tryptic Soy Agar	2-25 °C	184 days	Settling Plates with 2D barcodes 100 plates (10 packs of 1 x 10 plates)	R111TW3	USA

Contact your local Thermo Fisher Scientific Microbiology Account Manager for more information.

Complete your workflow with quality control microorganisms for growth promotion testing

Thermo Scientific™ Quanti-Cult Plus™ kits provide specific, reproducible numbers of viable microorganisms with <100 colony forming units (cfu) per inoculum with full range of pharmacopeia referred strains.

Trust in complete traceability with fully characterized ATCC® Licensed Derivative strains.

Choose Quanti-Cult Plus kits for:

Guaranteed performance

Pharmacopeia-compliant, accredited reference material producer in accordance with ISO 17034

Improved safety

Reduce the risk of contamination and infection with a ready-to rehydrate, two-vial system that requires zeroorganism handling

Enhanced efficiency

No serial dilution or stock culture maintenance required
