## **SECTION 2: HAZARDS IDENTIFICATION**

#### 2.1. Classification of the substance or mixture

CLP Classification - According to GB-CLP Regulations UK SI 2019/720 and UK SI 2020/1567

#### Physical hazards

Based on available data, the classification criteria are not met

#### Health hazards

Acute oral toxicity

Category 4 (H302)

#### Ethylxanthic acid potassium salt

Skin Corrosion/Irritation Serious Eye Damage/Eye Irritation Specific target organ toxicity - (single exposure) Category 2 (H315) Category 2 (H319) Category 3 (H335)

#### Environmental hazards

Based on available data, the classification criteria are not met

Full text of Hazard Statements: see section 16

2.2. Label elements

Signal Word

Warning

#### Hazard Statements

- H302 Harmful if swallowed
- H319 Causes serious eye irritation
- H315 Causes skin irritation
- H335 May cause respiratory irritation

#### **Precautionary Statements**

P261 - Avoid breathing dust/fume/gas/mist/vapors/spray

- P301 + P312 IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell
- P302 + P352 IF ON SKIN: Wash with plenty of soap and water
- P280 Wear protective gloves/protective clothing/eye protection/face protection

P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing

#### 2.3. Other hazards

Substance is not considered persistent, bioaccumulative and toxic (PBT) / very persistent and very bioaccumulative (vPvB)

This product does not contain any known or suspected endocrine disruptors

## SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

#### 3.1. Substances

| Component                                              | CAS No   | EC No             | Weight % | CLP Classification - According to<br>GB-CLP Regulations UK SI 2019/720 and<br>UK SI 2020/1567 |
|--------------------------------------------------------|----------|-------------------|----------|-----------------------------------------------------------------------------------------------|
| Carbonodithioic acid, O-ethyl ester,<br>potassium salt | 140-89-6 | EEC No. 205-439-3 | > 97     | STOT SE 3 (H335)<br>Skin Irrit. 2 (H315)<br>Eye Irrit. 2 (H319)<br>Acute Tox. 4 (H302)        |

Full text of Hazard Statements: see section 16

#### **SECTION 4: FIRST AID MEASURES**

#### 4.1. Description of first aid measures

| Eye Contact                                                      | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Get medical attention.                                  |  |  |  |
|------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|--|--|--|
| Skin Contact                                                     | Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention.                     |  |  |  |
| Ingestion                                                        | Clean mouth with water. Get medical attention.                                                                                                   |  |  |  |
| Inhalation                                                       | Remove from exposure, lie down. Remove to fresh air. If not breathing, give artificial respiration. Get medical attention.                       |  |  |  |
| Self-Protection of the First Aider                               | Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination. |  |  |  |
| 4.2. Most important symptoms and effects, both acute and delayed |                                                                                                                                                  |  |  |  |

No information available.

#### 4.3. Indication of any immediate medical attention and special treatment needed

Notes to Physician Treat symptomatically.

**SECTION 5: FIREFIGHTING MEASURES** 

#### 5.1. Extinguishing media

Suitable Extinguishing Media Water spray. Carbon dioxide (CO<sub>2</sub>). Dry chemical. Chemical foam.

Extinguishing media which must not be used for safety reasons No information available.

#### 5.2. Special hazards arising from the substance or mixture

Thermal decomposition can lead to release of irritating gases and vapors.

#### Hazardous Combustion Products

Carbon monoxide (CO), Carbon dioxide (CO<sub>2</sub>), Sulfur oxides.

#### 5.3. Advice for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

#### **SECTION 6: ACCIDENTAL RELEASE MEASURES**

#### 6.1. Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation.

#### 6.2. Environmental precautions

See Section 12 for additional Ecological Information.

#### 6.3. Methods and material for containment and cleaning up

Sweep up and shovel into suitable containers for disposal. Do not let this chemical enter the environment.

#### 6.4. Reference to other sections

Refer to protective measures listed in Sections 8 and 13.

#### **SECTION 7: HANDLING AND STORAGE**

#### 7.1. Precautions for safe handling

Avoid contact with skin and eyes. Do not breathe dust. Do not ingest. If swallowed then seek immediate medical assistance.

#### **Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice. Keep away from food, drink and animal feeding stuffs. Do not eat, drink or smoke when using this product. Remove and wash contaminated clothing and gloves, including the inside, before re-use. Wash hands before breaks and after work.

#### 7.2. Conditions for safe storage, including any incompatibilities

Keep in a dry, cool and well-ventilated place. Keep container tightly closed.

Technical Rules for Hazardous Substances (TRGS) 510 Class 11 Storage Class (LGK) (Germany)

#### 7.3. Specific end use(s)

Use in laboratories

## **SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION**

#### 8.1. Control parameters

Exposure limits

List source(s):

#### **Biological limit values**

This product, as supplied, does not contain any hazardous materials with biological limits established by the region specific regulatory bodies

## Derived No Effect Level (DNEL) / Derived Minimum Effect Level (DMEL)

See table for values

| Component                                           | Acute effects local<br>(Dermal) | Acute effects<br>systemic (Dermal) | Chronic effects local<br>(Dermal) | Chronic effects systemic (Dermal) |
|-----------------------------------------------------|---------------------------------|------------------------------------|-----------------------------------|-----------------------------------|
| Carbonodithioic acid, O-ethyl ester, potassium salt | DNEL = 0.79mg/cm2               | DNEL = 40mg/kg<br>bw/day           | DNEL = 0.79mg/cm2                 | DNEL = 31.44mg/kg<br>bw/day       |

#### Ethylxanthic acid potassium salt

140-89-6 ( > 97 )

| Component                                                                   | Acute effects local<br>(Inhalation) | Acute effects systemic (Inhalation) | Chronic effects local<br>(Inhalation) | Chronic effects systemic (Inhalation) |
|-----------------------------------------------------------------------------|-------------------------------------|-------------------------------------|---------------------------------------|---------------------------------------|
| Carbonodithioic acid, O-ethyl<br>ester, potassium salt<br>140-89-6 ( > 97 ) | DNEL = 4.6mg/m <sup>3</sup>         | DNEL = 4.6mg/m <sup>3</sup>         | DNEL = 4.6mg/m <sup>3</sup>           | DNEL = 4.6mg/m <sup>3</sup>           |

#### Predicted No Effect Concentration (PNEC)

See values below.

| Component                                                                      | Fresh water    | Fresh water<br>sediment        | Water Intermittent | Microorganisms in<br>sewage treatment | Soil (Agriculture)         |
|--------------------------------------------------------------------------------|----------------|--------------------------------|--------------------|---------------------------------------|----------------------------|
| Carbonodithioic acid,<br>O-ethyl ester, potassium<br>salt<br>140-89-6 ( > 97 ) | PNEC = 0.3mg/L | PNEC = 5.6mg/kg<br>sediment dw | PNEC = 0.15mg/L    | PNEC = 1mg/L                          | PNEC = 4.1mg/kg<br>soil dw |

| Component                                                 | Marine water   | Marine water<br>sediment        | Marine water<br>intermittent | Food chain                | Air                        |
|-----------------------------------------------------------|----------------|---------------------------------|------------------------------|---------------------------|----------------------------|
| Carbonodithioic acid,<br>O-ethyl ester, potassium<br>salt | PNEC = 7.1mg/L | PNEC = 0.56mg/kg<br>sediment dw |                              | PNEC =<br>133.3mg/kg food | PNEC = 10mg/m <sup>3</sup> |
| 140-89-6 ( > 97 )                                         |                |                                 |                              |                           |                            |

#### 8.2. Exposure controls

#### Engineering Measures

Ensure adequate ventilation, especially in confined areas. Ensure that eyewash stations and safety showers are close to the workstation location.

Wherever possible, engineering control measures such as the isolation or enclosure of the process, the introduction of process or equipment changes to minimise release or contact, and the use of properly designed ventilation systems, should be adopted to control hazardous materials at source

#### Personal protective equipment

Eye Protection Goggles (European standard - EN 166)

| Hand Protection | Protective gloves |
|-----------------|-------------------|
|-----------------|-------------------|

| Glove material<br>Nitrile rubber<br>Neoprene<br>Natural rubber<br>PVC | Breakthrough time<br>See manufacturers<br>recommendations | Glove thickness<br>- | EU standard<br>EN 374 | Glove comments<br>(minimum requirement) |
|-----------------------------------------------------------------------|-----------------------------------------------------------|----------------------|-----------------------|-----------------------------------------|
|-----------------------------------------------------------------------|-----------------------------------------------------------|----------------------|-----------------------|-----------------------------------------|

Skin and body protection Wear appropriate protective gloves and clothing to prevent skin exposure.

Inspect gloves before use.

Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. (Refer to manufacturer/supplier for information)

Ensure gloves are suitable for the task: Chemical compatability, Dexterity, Operational conditions, User susceptibility, e.g. sensitisation effects, also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion.

Remove gloves with care avoiding skin contamination.

| Respiratory Protection    | No protective equipment is needed under normal use conditions.                                                                                      |
|---------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Large scale/emergency use | Use a NIOSH/MSHA or European Standard EN 136 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced |

Revision Date 06-Oct-2023

Small scale/Laboratory use

Maintain adequate ventilation

Environmental exposure controls No information available.

## **SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES**

#### 9.1. Information on basic physical and chemical properties

| Physical State                                                                                                                                             | Powder Solid                                                                                                                                                                                  |                                   |

| Molecular Formula | C3 H5 K O S2           |
|-------------------|------------------------|
| Molecular Weight  | 160.3                  |
| Evaporation Rate  | Not applicable - Solid |

## **SECTION 10: STABILITY AND REACTIVITY**

| 10.1. Reactivity                                | None known, based on information available                            |
|-------------------------------------------------|-----------------------------------------------------------------------|
| 10.2. Chemical stability                        | Stable under normal conditions.                                       |
| 10.3. Possibility of hazardous react            | ions                                                                  |
| Hazardous Polymerization<br>Hazardous Reactions | Hazardous polymerization does not occur.<br>No information available. |
| 10.4. Conditions to avoid                       | Temperatures above .?1°C. Exposure to light. Incompatible products.   |

#### 10.5. Incompatible materials

Strong oxidizing agents. Strong acids. Strong bases.

#### 10.6. Hazardous decomposition products

Carbon monoxide (CO). Carbon dioxide (CO<sub>2</sub>). Sulfur oxides.

## **SECTION 11: TOXICOLOGICAL INFORMATION**

#### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

#### **Product Information**

| (a) acute toxicity; |                   |
|---------------------|-------------------|
| Oral                | Category 4        |
| Dermal              | No data available |
| Inhalation          | No data available |

| LD50 Oral               | LD50 Dermal | LC50 Inhalation |
|-------------------------|-------------|-----------------|
| LD50 = 1700 mg/kg (Rat) | -           | -               |
|                         |             |                 |

| (b) skin corrosion/irritation;                                | Category 2                                                     |
|---------------------------------------------------------------|----------------------------------------------------------------|
| (c) serious eye damage/irritation;                            | Category 2                                                     |
| (d) respiratory or skin sensitization;<br>Respiratory<br>Skin | No data available<br>No data available                         |
| (e) germ cell mutagenicity;                                   | No data available                                              |
| (f) carcinogenicity;                                          | No data available                                              |
|                                                               | There are no known carcinogenic chemicals in this product      |
|                                                               |                                                                |
| (g) reproductive toxicity;                                    | No data available                                              |
| (h) STOT-single exposure;                                     | Category 3                                                     |
| Results / Target organs                                       | Respiratory system.                                            |
| (i) STOT-repeated exposure;                                   | No data available                                              |
| Target Organs                                                 | No information available.                                      |
| (j) aspiration hazard;                                        | Not applicable<br>Solid                                        |
| Other Adverse Effects                                         | The toxicological properties have not been fully investigated. |
| Symptoms / effects,both acute and delayed                     | No information available.                                      |

#### 11.2. Information on other hazards

Endocrine Disrupting Properties

Assess endocrine disrupting properties for human health. This product does not contain any known or suspected endocrine disruptors.

## **SECTION 12: ECOLOGICAL INFORMATION**

#### 12.1. Toxicity Ecotoxicity effects

Do not empty into drains.

| Component                                              | Freshwater Fish                                         | Water Flea | Freshwater Algae |
|--------------------------------------------------------|---------------------------------------------------------|------------|------------------|
| Carbonodithioic acid, O-ethyl ester,<br>potassium salt | LC50: 15 - 25 mg/L, 96h static<br>(Oncorhynchus mykiss) |            |                  |

| 12.2. Persistence and degradability<br>Persistence                                              | Soluble in water, Persistence is unlikely, based on information available.                                                                                 |
|-------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 12.3. Bioaccumulative potential                                                                 | Bioaccumulation is unlikely                                                                                                                                |
| <u>12.4. Mobility in soil</u>                                                                   | The product is water soluble, and may spread in water systems Will likely be mobile in the environment due to its water solubility. Highly mobile in soils |
| <u>12.5. Results of PBT and vPvB</u><br>assessment                                              | Substance is not considered persistent, bioaccumulative and toxic (PBT) / very persistent and very bioaccumulative (vPvB).                                 |
| 12.6. Endocrine disrupting<br>properties<br>Endocrine Disruptor Information                     | This product does not contain any known or suspected endocrine disruptors                                                                                  |
| <u>12.7. Other adverse effects</u><br>Persistent Organic Pollutant<br>Ozone Depletion Potential | This product does not contain any known or suspected substance<br>This product does not contain any known or suspected substance                           |

## **SECTION 13: DISPOSAL CONSIDERATIONS**

| 13.1. Waste treatment methods          |                                                                                                                                                                        |
|----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Waste from Residues/Unused<br>Products | Waste is classified as hazardous. Dispose of in accordance with the European Directives on waste and hazardous waste. Dispose of in accordance with local regulations. |
| Contaminated Packaging                 | Dispose of this container to hazardous or special waste collection point.                                                                                              |
| European Waste Catalogue (EWC)         | According to the European Waste Catalog, Waste Codes are not product specific, but application specific.                                                               |
| Other Information                      | Waste codes should be assigned by the user based on the application for which the product was used. Do not empty into drains.                                          |

| IMDG/IMO                                                                                                                                | Not regulated                    |

## Regulation (EC) No 649/2012 of the European Parliament and of the Council of 4 July 2012 concerning the export and import of dangerous chemicals

Not applicable

#### Contains component(s) that meet a 'definition' of per & poly fluoroalkyl substance (PFAS)? Not applicable

Take note of Directive 98/24/EC on the protection of the health and safety of workers from the risks related to chemical agents at work .

#### **National Regulations**

UK - Take note of Control of Substances Hazardous to Health Regulations (COSHH) 2002 and 2005 Amendment

WGK Classification

Water endangering class = 1 (self classification)

#### 15.2. Chemical safety assessment

A Chemical Safety Assessment/Report (CSA/CSR) has not been conducted

### **SECTION 16: OTHER INFORMATION**

Full text of H-Statements referred to under sections 2 and 3

H302 - Harmful if swallowed

H315 - Causes skin irritation

H319 - Causes serious eye irritation

H335 - May cause respiratory irritation

#### **Training Advice**

Chemical hazard awareness training, incorporating labelling, Safety Data Sheets (SDS), Personal Protective Equipment (PPE) and hygiene.

Use of personal protective equipment, covering appropriate selection, compatibility, breakthrough thresholds, care, maintenance, fit and standards.

First aid for chemical exposure, including the use of eye wash and safety showers.
