Ear plug, Jazz-Band®

50

Unique neck cord with built-in release mechanism enables the Jazz-Band® to hang comfortably and safely around the neck when not in use.

AdB (Anti-decibel) coated pods offer increased hygiene and attenuation with both the comfort of a foam pod and washable convenience. Cost effective, revolutionary pod design reduces replacement costs by 50%. One pair of replacement pods are included with each Jazz-Band®. Cooler and more comfortable than ear muffs. Can be used with protective eyewear without loss of attenuation. SNR = 23dB.
