#### Gloves, vinyl, disposable, Semperguard, PPE Category I

sempermed®  
INDUSTRIAL  
A MEMBER OF THE SEMPERIT-GROUP

S3

Manufactured from a high quality vinyl formula and available in both lightly powdered and powder free styles, these tear resistant, seamless gloves are free of latex proteins and accelerators. Rolled cuff, 0.28mm thickness at the palm and an AQL of 1.5. Ambidextrous. Length 240mm.

Chemical resistance data for this glove is available at [www.sempermed.com](http://www.sempermed.com). Select the industrial gloves section from European Branch and then click on 'English', then 'Products', and then from the list headed 'Disposable Protective Gloves' select the appropriate vinyl glove and then click on 'Show List' for chemicals. Alternatively you can access the 'Products' section of the Sempermed site for this information via the Fisher Scientific website.
