

# Fisherbrand Carboys

Value your lab can rely on

- Heavy wall construction provides long lasting, rugged service
- Rectangular shape optimises bench space
- Choice of materials for general use or autoclavability
- Balanced body proportions provide stability when full, prevent accidental tipping-over, optimise vertical storage space, and allow for maximum solution recovery
- Sturdy spigot (as applicable) endures the rigours of daily lab and field use
- Polypropylene (PP) carboys are autoclavable; spigot closure included with PP carboys for use when autoclaving with liquid contained inside. Follow autoclaving instructions provided with product for proper use and performance
- Metal handle securely supports the carboy when full and allows for ergonomic transport about the lab. Handle swivels out of the way when not in use. 20L size features moulded-in hand grips on the sides for added handling ergonomics and versatility
- Wide mouth closure allows for easy filling and cleaning access
- Graduations and size identification permanently moulded into the sides for efficient use
- Good chemical resistance enables use with a wide variety of lab reagents
- Materials meet FDA requirements for food use and USP VI criteria (non-toxic)
- Carboys with spigots include a hose barb insert to accommodate ¼ to 5/16-in. ID tubing. Spigot spout without the adapter fits 5/8-in. ID tubing
- Packaged and sold individually for customer convenience

Cat. No	Material	Capacity	Spigot	Autoclavable	Pack qty
13438039	HDPE	9L	Yes	No	1
13408039	HDPE	20L	Yes	No	1
13428039	PP	20L	Yes	Yes	1
13418039	PP	9L	Yes	Yes	1
13488029	Replacement closure				6
13448039	Replacement spigot				1
